Quality Assurance – Technical Specification

Our Services	Technologies/Tools We Give Support for Manual /Automation Testing in QA
Types of Testing - End-to-End Functional Testing - GUI Testing - Compatibility Testing - Cross browser Testing - Usability Testing - Mobile Testing - Platform Testing - Responsive Testing - Load Testing - Security Testing - Automation - API Testing	**Manual Testing:** We execute all the testing types to make sure the project/ product is in good shape. Testers play a crucial role in ensuring the quality and functionality of a software application. Manual testing involves human intervention without the use of automated tools. This includes testing the project's compatibility with various operating systems and browsers as below Windows (Chrome, Firefox, MS Edge) Mac (Chrome, Safari) Mobile & Tablet view **Bug Tracking Tools:** DevTracker (Blattnertech's Own Product), JIRA, Trello, Asana **Tools used for Automation Testing** **For Web**: Eclipse & Selenium Webdriver. **Scripting Language:** JAVA **Performance (LOAD) Testing Tools:** Jmeter. **Security Testing Tool:** PortSwigger Web Security (Burp Suite), OWASP (Open Web Application Security Project), Acunetix Vulnerability Scanner.
Domain Knowledge - Healthcare - BFS (Banking & Financial Services) - eCommerce & Retails (BigCommerce, b2b-b2c, shopify) - Education -LMS - Supply Chain Management - ERP - Mobile & Telecom - Music & Entertainment - Construction - Food & Beverage - Nonprofits	- Our QA team is capable of performing testing on all mentioned domain websites. Prepared to work on other domains which are not listed.
Technologies Knowledge	- PHP - JAVA - .NET - APP

Payment Gateways	- Authorize.net (ARB, SIM and CIM) - PayPal (Payments Pro, Express Checkout, Payments Standard, Payflow Pro) - Stripe - NMI - FirstData - Elavon - SwervePay - Payeezy - PayUbiz India - PayU Global Payment Gateway - PayPal Rest APIs - Pay With Amazon APIs - CoHub shopping cart API - Heartland Payment Systems Gateway - Midtrans payment gateway - CardConnect Payment Gateway - Sage US Payment Gateway - Paytm Payment gateway - Apple Pay (one-time payment) - Google pay (one-time payment) - CyberSource - WorldPay
Test Deliverables	- Test Plan - Test scenarios list - Bug list - RCA report (Once goes Live) - Custom Report (as needed)
